

# Find the right refrigerator for your unique application

## Special introductory pricing on selected Thermo Scientific refrigerators

Not all applications are the same—that's why we offer three series of Thermo Scientific™ biomedical laboratory refrigerators. Each offers unique features and benefits while utilizing different cooling technologies that are best suited for their design and purpose.

### Thermo Scientific™ Value™ series refrigerators

These laboratory refrigerators are designed to safely store samples at temperatures from 1° to 12°C and are particularly suited for routine laboratory applications, with sizes ranging from small benchtop to full-height freestanding.

### Thermo Scientific™ TSG series refrigerators

These general-purpose laboratory refrigerators are designed for the demanding requirements of daily use in research, clinical, and industrial laboratories storing noncritical products such as reagents, media, proteins, and other samples requiring a controlled environment of 2° to 10°C.

### Thermo Scientific™ TSX series refrigerators

These high-performance lab refrigerators are designed with features that support sample protection and sustainability for storing media, reagents, chemotherapy and pharmaceutical compounds, and other medical- and laboratory-grade products requiring a storage environment of 3° to 7°C. The series' V-drive technology, coupled with Phononic™ heat pumps for our undercounter units, is designed to provide temperature uniformity that continually adapts to user patterns, offering significant energy savings without compromising protection.

Undercounter refrigerators 05LREETSA, TSG505SA, and TSX505SA.

For a limited time, save on our full-size, single-door, and undercounter TSX, TSG, and Value series refrigerators.\*

Comparison table

Series	Value	TSG	TSX
Operating range at 5°C setpoint	1–12°C	2–10°C	3–7°C
ENERGY STAR™-certified		•	•
Natural refrigerants (EPA SNAP-compliant)		•	•
Alarm types	None	Local, remote contacts	Local, remote contacts, cloud
Applications (see symbol key)
